The Auto Eclipse Laptop Disabler

The Laptop disabler prevents drivers from operating their PC or laptop when driving, while still allowing drivers to keep their work in tact so that it is easy to return to work when they park.

- ➔ Reduces Driving Distractions
- ➔ Results in Fewer Insurance Claims
- ➔ Fewer Claims Leads to Lower Premiums
- ➔ Enforces Safer Driving
- ➔ Saves Lives

Driving Blind is Dangerous

Driving at 60 mph, you travel 176 feet of highway in just 2 seconds! If you are looking at anything other than the road, you can easily miss something important: Like those brake lights ahead!

The CarPC Store believes that no one should drive distracted. It's dangerous, and costly if you cause an accident. That's why we developed the Auto Eclipse Laptop Disabler to prevent drivers from operating their laptops or PCs while driving.
